Description

Founded in 2012, SunCulture's Vision is to build a world where people take control of their environment in rewarding and sustainable ways. SunCulture does this by developing and commercialising life changing technology that solves the biggest daily challenges for the world's 570 million smallholder farming households. We are the largest distributor of solar water pumps / solar irrigation for smallholder farmers in Africa and were selected by Fast Company as one of the World's Most Innovative Companies in 2021.

About the Role

SunCulture is a growing organization and occasionally we have have internship openings to support our business continuity. By completing this application, you are submitting an expression of interest to join us as an intern. Should an internship position open up, a member of our recruiting team will reach out to shortlisted candidates.
