Description

Catholic Relief Services (CRS) carries out the commitment of the Bishops of the United States to assist the poor and vulnerable overseas. Our Catholic identity is at the heart of our mission and operations. We welcome, as a part of our staff and as partners, people of all faiths and secular traditions who share our values and commitment to serving those in need.

CRS has worked in Kenya since 1965. Over the years, CRS' focus shifted from direct relief and food distributions to a comprehensive development program. Our approach to delivering outcomes at scale is facilitative, focusing on partnerships, capacity building and a commitment to strengthening local leadership. We work through local implementing partners and collaborate closely with government of Kenya both at National and County levels and other stakeholders.

CRS Kenya is currently working in Turkana, Marsabit, Isiolo, Kilifi, Nairobi, Kisumu, Siaya, Kakamega, Mombasa, Meru and Homabay Counties, and implementing projects in the program areas of Agriculture and Livelihoods, Health, Water and Sanitation, Peace building, Climate Change Mitigation and Adaptation, Emergency Response and Social Services for children and families.

Job Summary:

Reporting to the Head of Programming, the Technical Advisor – Climate Change Adaptation & Livelihoods will provide technical assistance, guidance, and support to a wide range of program design issues with a focus on climate change adaptation, focused business development efforts and play a lead role in establishing CRS as a climate change adaptation thought leader in Kenya in line with Catholic Relief Services (CRS) program quality principles and standards, donor guidelines, and industry best practices to the Country Program (CP). S/he will contribute to the development of programs, strategies, tools and best practices in climate change adaptation and livelihoods that effectively engage communities, partners, donors and governments, with specific focus on climate financing and advocacy, climate smart agriculture, integrated livelihoods and value chains.

Responsibilities

- Contribute to the development and implementation of programs, strategies, standards, tools, and best practices in climate change adaptation and livelihoods that effectively engage communities, partners, donors and governments. Specific areas of focus include climate financing and advocacy, climate smart agriculture, integrated livelihoods and value chains.
- Contribute to the CP's efforts to position for growth opportunities to support CRS's Strategic Change Platform on Resilient Livelihoods and Flourishing Landscapes. Lead or contribute to the development of the technical design for large and/or complex proposals, including defining appropriate monitoring systems and indicators. Advise project teams on integrating donor strategies, priorities and technical requirements into CRS' approach.
- Contribute to capacity strengthening initiatives in climate change adaptation and livelihoods programming for staff and partner through helping develop learning and training strategies and agendas/curriculums, conducting
